

BIG STUDIO UPDATE

We have some **BIG NEWS** we can finally announce! Travis and Kirsten have been asked to be the new Studio Directors of The Piano Place at the new Saratoga Springs location! With that news, we have been given a great opportunity to merge our studio with The Piano Place and have been working with them on this merge since Mar 2022. We are so excited to see things starting to move ahead!

The Location of this studio is in the new development by Wingstop across from Costco and just north of Westlake Physical Therapy. It has 8-10 beautiful studio rooms all themed with famous singers, song writers and musicians.

So what does that mean for you? You will have access to a lot of by now being apart of The Piano Place family. We not only will be teaching Voice and Acting, but we will also have Piano, Violin, Drum, Guitar, Acting, etc. lessons that will be available to you! We will also have the opportunity to participate in recital performances, 2 of which are big productions! Our interface of how rescheduling, payments and other things will change. **HOWEVER** What will **NOT** be changing is your tuition. That will stay the same and will always stay the same once you join and stay. Your tuition will not change and that is a vow and a promise from us! You will however have an option to be added to their auto payment system if you wish!

Bottom line is that this merge will give you, our students, much more opportunities including studio space, performance opportunities, etc. But will always remain the same is the instruction you receive and the support you have from us! We love you guys and cant thank you enough for all you have helped us accomplish with our dreams of opening a successful studio together.

If you have any questions or concerns, please feel free to email, text or call us! We will answer everything we can with what we know right now. We don't have all the answers but will be trained soon and will have more answers as September gets closer. Again thank you for helping us achieve our dreams!

-- Kirsten and Travis Anderson
